ABOUT PHOTO SESSION

WHAT TO WEAR

Instead choose navy or purple, burgundy, turquoise or other tones. I suggest you bring a range of different colors, and necklines and be prepare for two outfit changes. Keeping jewelry to a minimum is key, studs or small earrings work and simple necklaces, anything hanging or chunky will usually draw too much attention to itself.

HAIR AND MAKE UP

The makeup is applied specifically for the lighting we use and we usually start very naturally to give you a very clean simple look to allow the actor to be portrayed similarly to how they look in real life, with very little re-touching.

The cost for makeup and hair help during your session is not included.

Any question, call me: +37060530778.
